UNCLE SAM AND GREATER AMERICA

Why don't the Goebel thieves move to

throw out every vote cast against their

disreputable "boss" and be done with it?

KENTUCKY has an unenviable reputa-

tion for lynching people; and yet, if some

of the things that have been done in this

state since the recent election had hap-

pened elsewhere, the lamp posts would

have been ornamented with their authors.

THE Courier-Journal of Louisville heads

an editorial "Give Us More Factories."

Hope you don't mean Fraud Factories;

but, all levity aside, do you suppose capi-

talists will invest in a state where they

can be robbed of their votes by such un-

scrupulous men as you are supporting?

Customs receipts under the Dingley

Law continue to surpass even the most

sanguine expectations of its framers. In

the month of October they amounted to

\$18,800,000, or an average of over \$600,-

000 per day, and in the first nine days of

November were over \$6,000,000, thus

being far in excess of the half a million

dollars a day which is the amount ordi-

narily expected of the customs end of the

revenue-producing machinery of the Gov-

ernment.

ANOTHER feather in the cap of the Ad-

ministration is the acquisition of the

island of Tutuila in the Samoan group,

which falls to our lot in the readjustment

made by the United States, Germany and

Great Britain. This island possesses the

finest island harbor in the South Pacific,

and perhaps the entire Pacific Ocean, and

thus adds a very valuable feature to the

Pacific territory which has come into the

possession of the United States during

President McKinley's term.

AUNTIE BOUTWELL, the side partner of

ATKINSON and AGINALDO, must be quite

discouraged over the result of the elec-

tion. In a recent letter to an Indianapolis

friend, in which he discussed the ques-

tion of how the "aunties" could accom-

plish their purpose, whatever it is, he

said: "First of all we must get a popular

judgment against McKINLEY; as long

as the people are with him there is no

hope." The splendid Republican major-

ities in Ohio, Kentucky, New York, New

Jersey, Pennsylvania and other states do

not indicate that it will be practicable to

get a popular judgment against McKIN-

LEY.

The reader of this paper will be pleased

to learn that there is at least one disease

that science has been able to cure in all its

stages, and that is Catarrh. Hall's Catarrh

Cure is the only positive cure known to the

medical fraternity. Catarrh being a constitu-

tional disease, requires a constitutional treat-

ment. Hall's Catarrh Cure is taken inter-

nally, acting directly on the blood and mucous

surfaces of the system, thereby destroying the

foundation of the disease, and giving the pa-

tient strength by building up the constitution

and assisting nature in doing its work. The

proprietors have so much faith in its curative

powers that they offer One Hundred Dollars

for any case that it fails to cure. Send for list

## NEWS IN KENTUCKY.

### VETERANS DYING OFF.

Nine Thousand Soldiers of the Mexican War Are After an Increase of Their Pensions.

LEXINGTON, Ky., Nov. 30.—Gen. W. B. Smith, secretary and treasurer of the Mexican war veterans, who is preparing to put before congress a bill to increase the pensions of the men who fought for their country fifty years ago, is receiving many letters from senators, representatives, governors and others endorsing the scheme. Gen. Smith says there are now about nine thousand of these men living, and they are dying at the rate of three per day. There are eight state organizations. They are too proud to beg, he says, and yet their pensions are so meager that many of them have to accept charity.

#### Hanged Himself.

LOUISVILLE, Ky., Nov. 30.—Louis R. Porter, 19 years old, committed suicide at his home 3005 Seventh street, Sunday night by hanging himself. He was employed at the Kentucky wagon works.

#### Strange Phenomenon in the Heavens.

BIRMINGHAM, Ala., Nov. 30.—A strange phenomenon, supposed to be a part of the tri-centenary meteoric disturbance scheduled by the astronomers, was observed here Sunday night between 9 o'clock and midnight. The fiery messengers made their appearance directly overhead and attracted much attention and no little fear among the Negroes. As many as ten meteors were seen, all of which were in the nebula form resembling comets. They first appeared as patches of light and at times would glow a fiery red and then fade away, repeating the operation a number of times before they finally disappeared.

Wyman, of the marine hospital service, show that the yellow fever has about run its course at Key West, Fla., where it was so severe the latter part of the summer.
